

VibeHaus - Copywriting

Author: Sakshi ·

Tone of voice

Warm, honest, low-pressure. VibeHaus talks like a thoughtful friend, not a matchmaker or a salesperson.

- No urgency ("Only 2 spots left!"), no guilt ("Your Vibemates miss you"), no romantic framing, no fabricated social proof.
 - Every error tells the truth and offers one clear next step — never a vague "Something went wrong."
 - Destructive actions always state the consequence plainly before asking for confirmation.
 - AI moments (Vibe Score, Mr. Vibe) always explain themselves in plain language, never present an unexplained number or a black-box answer.
